1) Cut pattern into a square by removing this part of the page and/or any margins.

2) Fold the paper in half horizontally, unfold, then fold vertically and unfold. Repeat diagonally.
3) With the printed side facing down, fold all the corners into the center.

4) Flip over your paper. You should now see the fortunes (the middle of the template).

5) Once again, fold each of the corners inward. Now, all the options should be visible.

6) Fold your paper in half again so the options are on the inside, and the flaps are on the outside.

7) Slide your thumb and pointer fingers into the flaps, and press them together to form your cootie catcher!
