

Logistics Document Production

Enclosed in this document are samples of the documents that Redberry Logistics produces. These are all either printed or emailed and are only samples of A4 format. Continuous stationary forms such as the Continuous Neutral Master and House Air Waybill documents can be produced along with Letter size and labels. If continuous forms are produced then Logistics will also capture an image of what you see in this document so that the document image can be used for emailing purposes.

This document has been produced into a PDF file for viewing using Adobe Reader as the original format has a very large file size, if you are viewing as PDF then the quality of the logos have been reduced to maximise the file saving utility. If you wish to see the actual format in which the system sends out the emails then please send an email to scott@redberry.com with the document you wish to view.

Logistics can produce different "Themed" documents, the majority of the documents are set as one style the last section includes samples of different themes including actual documents from Logistic users.

Thank you for spending time to look at Redberry Logistics and please do not hesitate to contact us if you have any questions regarding any of these documents or the logistics package.

Yours sincerely

A handwritten signature in blue ink, appearing to read "Scott Smith", is positioned above the typed name.
