

School Letter

Date: _____

To Whom It May Concern:

_____ is being treated at Seattle Children's
for an ongoing condition related to the digestive system.

This child is on a daily bowel medicine to minimize the chance of having stooling accidents. Occasionally they may need to use the restroom during unscheduled breaks.

Please allow free access to use of the bathroom whenever needed until further notice. This will greatly help to put the child at ease and minimize the chance of embarrassing accidents.

Thank you for your cooperation and understanding. If you have questions or concerns, please call the Reconstructive Pelvic/General Surgery Nurses at 206-987-1240 opt. 4.

Thank you,
